Exempt Property Classification Codes

This code provides a system for identifying the ownership, purpose or use and specific description of a property of all tax-exempt properties in the State of New Jersey as reported by the local assessors.

The code itself consists of seven characters, which are divided into three parts.

PART 1	PART 2	PART 3
Ownership	Purpose or Use	Specific Description
XX	XX	XXX

The combination of the three parts into the seven digit coding structure will provide an identification system, which will greatly facilitate the analysis of tax-exempt property data.

Part 1 is the first two numeric characters and represents the **ownership** of tax-exempt property by name. For instance, the code for the first two characters of all state owned property would be 02.

Part 2 is the second two numeric characters and indicates the **principle use** or **purpose** of each exempt property. For instance, a property used for general governmental purposes whether state, federal or municipal owned would have a code 01.

Part 3 is the last three numeric characters and displays the **specific property description**. For example, administrative building would be coded 001.

Each single line item of exempt property should have its own code listing.

Examples:

- 1. A state owned administration building would have the code 02-01-001.
- 2. A county hospital would have the code 03-04-301.
- 3. A municipal golf course should be coded 04-19-646.
- 4. A school owned by a religious organization would be coded 23-03-353.
- 5. Land purchased by the State for the future construction of a highway is coded 02-07-095.
- 6. The State Police Academy is coded 02-06-353.
